

## CONTENTS

### Research Reports

Attempt to Simulate Elementary Process of Adhesive Wear by MD :

Reproduction of Wear Elements Generation Process on Real Contact Point

.....Alan HASE and Hiroshi MISHINA 3

Development of Dehydrogenation Catalysts of Organic-Hydrides at

Low Temperature for H<sub>2</sub>-Sourced Energy Devices

.....Takuma KAWAI, Yuhei OHTSURU, Yukihiro ISOZUMI,

Ryuta SUZUKI, Hirofumi ARITANI and Teruyuki HAKODA 11

### Published Papers

Department of Mechanical Engineering ..... 19

Department of Life Science and Green Chemistry..... 30

Department of Information Systems ..... 35

Foundation Study Center ..... 41

Graduate School of Engineering ..... 43

### Activities

Department of Mechanical Engineering ..... 47

Department of Life Science and Green Chemistry..... 48

Department of Information Systems ..... 48

Foundation Study Center ..... 49

Graduate School of Engineering ..... 50

### Progressive Research

Department of Mechanical Engineering ..... 53

Department of Life Science and Green Chemistry..... 57

Department of Information Systems ..... 63

Foundation Study Center ..... 67

Graduate School of Engineering ..... 70
