

# CONTENTS

## Research Reports

Development of a Quasi-Two-Dimensional Monte Carlo Simulation Method for a Magnetic Octahedral Particle Suspension .....	Kazuya OKADA	3
---	--------------	---

Introduction of Problem-solving Game Activity into Orientation for New Students and Its Effects .....	Alan HASE	9
--	-----------	---

Development of Highly Active Pt/Alumina as Low Temperature Catalysts for Utilization of Organic Hydride Dehydrogenation Processes .....	Ryuki KINOSHIRO, Hiroyuki MIYANAGA, Masato TSUCHIDA, Hiroaki IMAI, Kanji KOBAYASHI, and Hirofumi ARITANI	15
---	---	----

## News

Completion of Mechanical Engineering Department Comprehensive Experiment Training Building .....	Naoki KAWADA	23
---	--------------	----

## Published Papers

Department of Mechanical Engineering .....	27
Department of Life Science and Green Chemistry .....	39
Department of Information Systems .....	42
Foundation Study Center .....	50
Advanced Science Research Laboratory .....	51

## Activities

Department of Mechanical Engineering .....	55
Department of Life Science and Green Chemistry .....	57
Department of Information Systems .....	58
Foundation Study Center .....	60
Advanced Science Research Laboratory .....	60

## Progressive Research

Department of Mechanical Engineering .....	65
